

THE COST OF THE SCHOOL DAY

Voice network activities – taking action

Creating your own costs calendar

Raise awareness of cost issues in your school and promote the help available to families.

As a group, you can have a think about all the different events and days that happen at your school. Which ones mean you need to spend money? As a group, you could help decide which events are most important for your school. Are they well spaced out? How much money is being asked for?

You can make your school costs calendar as colourful and interactive as you like.

Abbey Primary School in South Lanarkshire created their own cost calendar, which you can take a look at: <https://tinyurl.com/4ekpw4jp>

And you can use the Cost of the School Day Calendar to get started: <https://tinyurl.com/2yavphxe>
