

# THE COST OF THE SCHOOL DAY

## Voice network activities – taking action

### Reviewing uniform policies

**Be part of policy decisions in your school and ensure that young people's voices are heard in important discussions.**

Uniform costs can put pressure on family budgets. Your group can work with pupils and parents to help review your current uniform policy and make sure it's affordable for everyone

Keith Grammar in Moray took a whole-school approach to reviewing their uniform policy, and came up with a simple and affordable policy together (read about what they did: <https://tinyurl.com/2y4mr5sz>)

Some things to think about:

- What do you currently need to wear to school?
- How much does it cost to get fully kitted out for school? You can look online at your uniform suppliers to help add up the total cost.
- Are there certain items of uniform that only some years need to buy? Is this difficult for some people to afford? Can you find out?
- How many items of uniform must have a school logo on it? Are there things we can do make this
