

THE COST OF THE SCHOOL DAY

Voice network activities – asking everyone about costs

Talking to parents

Helping your group to ask parents and carers about school costs.

Voice groups can help to ask families what they think about costs. Boghall Primary School in West Lothian created a film and posted it on X/Twitter to involve parents and get them to fill out a costs survey.

You can show the film, Talking about Costs and Money at School to other people in your school, including parents and carers. This short animation explains why it's good for schools and families to talk about costs.
