

# Financial help in the school years

**April 2025**

---

Child Poverty Action Group works on behalf of the one in four children in Scotland growing up in poverty. It doesn't have to be like this. We use our understanding of what causes poverty and the impact it has on children's lives to campaign for policies that will prevent and solve poverty – for good.

We provide training, advice and information to make sure hard-up families get the financial support they need.

### Early Warning System

The Early Warning System (EWS) was developed by CPAG in Scotland to collect and analyse case studies about how changes to the benefit system are affecting the wellbeing of children, their families and the communities and services that support them. The case studies are helping us develop an in-depth understanding of the impact of changes to the benefit system and to identify how policies and services in Scotland can continue to contribute to the delivery of better outcomes for children.
